

# You'll wish you were your dog.....

The Gofetch&Barkalott customer showers their pets with trust, love, affection and education. We offer the same standards for their canine family members while in our care. Whether you are thirty thousand feet in the air, preparing the home for a party or on the golf course, we are committed to providing an opportunity for your dogs to spend the day in an outdoor setting and to afford you peace of mind.

The dogs are never caged or held in any sort of pen. We pick them up in the morning and bring them home safely in the evening. The dogs spend their time at Gofetch&Barkalott hiking, running, walking, swimming and playing fetch. They experience total interaction with our excursion guides. The dogs are socialized at locations such as Sky Harbor Airport or Lowes and on bridges and overpasses, to name a few. We will work on training initiatives throughout the day just so Bowser can always be up on his commands. He will also enjoy time with his fellow dog buddies in our limited size groups. And, just so you know how much fun they are having without you, we will send a photo right to your phone.

Our customers come to us because we believe that dogs require emotional health in addition to physical health. The dogs aren't deposited in a large room with forty other dogs, left to their own devices. Our customers don't select services from a menu full of add on costs. The *entire* menu is our care. That is why your dog arrives home after a fresh bath and light massage. Need to trim the nails or dispense medication? No problem. Our pleasure.

At Gofetch&Barkalott we are in the business of improving our client's lives through physical activity, engaging interaction and plenty of trust, love, affection and education. We love it when our customers tell us that their dog dissolves into a silent puddle of skin and bones at their feet. Our customer's dogs are not merely clients, they are also members of our family.
